

# ERGOTRON®

## Neo-Flex® Lift Stands

### Highlights

- Position LCD screens for maximum ergonomic comfort—promotes wellness in any work area
- Small footprint frees up your workspace and increases your efficiency
- Integrated base rollers enable 360° rotation of the stand so you can share your views with others
- Features our patented Constant Force™ (CF™) technology that enables light touch adjustments without levers or knobs
- Five-inch (13 cm) height adjustment ergonomically accommodates average range of users
- Easy to use—simple installation and effortless operation
- Everything is included to neatly route cables behind the stand, out of the way
- Lift Stands meet the tip test requirements of UL specification 1678

### A Neo-Flex Lift Stand for every computing configuration

#### Dual LCD Lift Stand

Affordable, height-adjustable dual-monitor stand for maximum productivity and comfort. Save time by using multiple applications at once—eliminate toggling back and forth between documents and programs. Simultaneously lift LCD screens to proper height for unsurpassed ergonomic comfort.

#### Widescreen Lift Stand

Upgrade your widescreen display with five-inch (13 cm) height adjustment, tilt, pan and portrait-to-landscape rotation for optimum viewing. Our fully weight-adjustable lift stands accommodate most displays (20–32"). Install displays at 3.5° or 8.5° upward angle for optimized viewing and 8° inward offset angle creating a view parabola for better sight lines.

#### Combo Lift Stand

Simply combine your laptop with an LCD display and separate keyboard and mouse to create a productive dual-display configuration. Save time by viewing multiple applications at once—eliminate toggling back and forth on a single screen. With this stand's height adjustment, tilt and rotation, you'll get desktop computing comfort combined with portability. Laptop can be configured on either the right or left side.
