

# Fitted Drapes

Convenient Single-Wipe Disinfecting Keyboard Covers

If anything can make our washable keyboards even cleaner, it's the drape.

Made of high-grade, durable waterproof silicone, the Fitted Drape is molded to fit our premium keyboard for an easy one-wipe clean. The only sterilizable keyboard solution available today, the Really Cool Fitted Drape and the Really Cool come together for the ultimate hygienic keyboard combo.

In similar fashion, the U Cool Fitted Drape features the same strong waterproof silicone, molded to fit U Cool's body for an easy one-wipe clean that enhances infection control. Slip U Cool's Fitted Drape off and into an autoclave, and you've got a freshly sterilized keyboard surface. Or douse it with chemical disinfectant for an instant upgrade in clean.

For a single-wipe clean that fits any keyboard and budget, Cool Drape comes in easy-peel sheets you can cut to fit. Also made of waterproof silicone, Cool Drape is a convenient and economical answer to keeping your keyboard or laptop free of dirt, germs and spills.
